

# Environmental Action System

With President Amioka as the Chair of the CSR Committee, two separate special committees, the Product Environment Committee and Production Environment Committee, were established which address and deliberate on related issues and action policies.

We are progressing with efforts in each field by coordinating among each concerned department and section in all companies in the Toyota Auto Body Group.

## CSR Committee

Committee Chair :

**President Takuji Amioka**

Direction given for important issues and setting of policies for fundamental items concerning CSR activities.

※ As of the end of March 2011

### Product Environment Committee

Committee Chair :  
**Senior Managing Director Yasushi Tanaka**

Deliberation of fundamental items pertaining to product development and technology which contribute to reducing environmental waste and conserving resources at the development stage.

**MI<sup>※1</sup> Subcommittee**

**Recycling and Dismantlement Subcommittee**

**SOC<sup>※2</sup> Subcommittee**

**VOC<sup>※3</sup> Subcommittee**

※1 MI: Mass Innovation

※2 SOC: Substances Of Concern

※3 VOC: Volatile Organic Compounds

### Production Environment Committee

Committee Chair :  
**Managing Director Akitsugu Ishiguro**

Promotion of enlightenment activities and environmental education. Also, deliberation of fundamental items concerning production activities and technological developments related to reusing resources and conserving resources and energy for production activities.

Fujimatsu Plant Production Environment Committee
