

Exhibiting at the Japan Mobility Show 2023

Proposing the future of commercial vans and passenger minivans under the theme *Bringing the Future to you*

Toyota Auto Body Co., Ltd. (Head Office: Kariya, Aichi, President: Katsuhiro Matsuo) will exhibit three concept cars and one restored vehicle under the theme of *Bringing the Future to you* over the 12 days*¹ of the Japan Mobility Show 2023 held at Tokyo Big Sight (Koto Ward, Tokyo) from Wednesday, October 25 to Sunday, November 5.

(*1) October 25 and 26: press days, October 27: special invitation days, October 28 to November 5: general public days

Toyota Auto Body Booth

East Exhibition Hall, East Hall 2 (Booth No. EB01)

Our booth will give you a sense of the history of vans that transport people and goods that began with the first-generation Hiace, as well as of the appeal and potential of commercial vehicles and passenger minivans.

Exhibited Vehicles

1. Global Hiace BEV Concept (*exhibition model, world premiere*)

- ▽ Next-generation BEV van featuring an advanced design, ample space, and ease of use.
 - Consideration for increasingly varied types of drivers (quietness, ease of entry and exit, minimum turning radius of 5.5 m).
 - Ease of use at its best (flat floor, walk through, dedicated dolly to move cargo without strain).
 - The area around the passenger seat can be converted into cargo space, making it possible to load items up to approximately 3.5 m long.
 - Enhanced efficiency through connectivity-based delivery (optimization of delivery routes, display of the storage position of the next item to deliver).

Main Specifications

Total length (mm)	Total width (mm)	Total height (mm)	Wheelbase (mm)	Max. cargo space length (mm)	Cargo space width (mm)	Cargo space height (mm)	Occupant capacity
5,280	1,950	1,990	3,210	3,490	1,715	1,270	1

2. X-Van Gear Concept (*exhibition model, world premiere*)

- ▽ Next-generation cab wagon designed to accommodate diversifying lifestyles and let everyone enjoy life.
 - New category that blends the ample space of a passenger minivan with the active style of an SUV.
 - Interior providing a living room feel thanks to the simple driver's seat area as well as the bright, sofa-like seats, and expansive ceiling.
 - Loading and unloading of hobby items such as bicycles or fishing rods is made possible by the

wide door opening resulting from removing the B-pillar.

- Three rows of seats offering six seat arrangement patterns adapted to various uses, including rotating the passenger seat and turning the second row seats into a table.

Main Specifications

Total length (mm)	Total width (mm)	Total height (mm)	Interior length (mm)	Interior width (mm)	Interior height (mm)	Occupant capacity
4,695	1,820	1,855	2,965	1,550	1,340	6

3. Vellfire Spacious Lounge Concept (*exhibition model, world premiere*)

- ▽ High-end minivan featuring amenities and functionality, and limited four seats to offer an ample, comfortable space.

Suited to a broad variety of needs ranging from chauffeuring to day-to-day use.

- Unique rear seats offering superb seating comfort, with 500 mm more legroom than a 7-seater. Equipped with a tray for bags and a refrigerator.
- Table and power supplies provided for business people to carry out work or participate in online meetings while on the move.
- Privacy ensured by a partitioning curtain behind the front seats.
- Profoundly relaxing experience while traveling thanks through the you-are-there music that can be played through the speakers embedded in the rear seat head restraints.
- Spacious luxury suite feel created by the unique carpet.
- Luggage area featuring an exclusive hanger bar enabling you to bring various changes of clothes suited to your destinations.

Main Specifications

Total length (mm)	Total width (mm)	Total height (mm)	Wheelbase (mm)	Interior length (mm)	Interior width (mm)	Interior height (mm)	Occupant capacity
4,955	1,850	1,945	3,000	3,005	1,660	1,360	4

4. Nine-seater first-generation Hiace (exhibition model) delivery van

▽ More convenient, more comfortable.

A restored version of the new form Hiace that, in 1967, was a frontrunner van that expanded the potential of vehicles.

- In an age when goods were transported by trucks, it was a people-oriented commercial vehicle serving as both a roofed truck and passenger vehicle that was perfectly aligned with the lifestyle of its day.

Main Specifications

Total length (mm)	Total width (mm)	Total height (mm)	Wheelbase (mm)	Engine	Transmission	Occupant capacity
4,305	1,690	1,890	2,350	1,600 cc, gasoline (12R-J)	4-speed manual	9

Hands-on program: Back to Kids!

See through a child's eyes and experience the overwhelmingly broad and fun ample space of the minivan.

- Ticket required.
- Tickets will be distributed at the booth once every hour. The distribution times will be announced on our official social media sites every day.

Mood-setting background music

The background music is an original melody created for the Japan Mobility Show 2023 Toyota Auto Body booth by local Aichi musician Shintaro Tokita of Sukima Switch, who are celebrating their 20th anniversary this year.

Come to the venue to hear it.
